- Phạm Gia Tuấn Khải
- Nguyễn Tuấn Tuấn

Team members absent:

- None

### **What worked well:**

1. Group completed all the requirements of PA2 on time.

### **What went wrong:**

1. Group's progress was postponed due to midterm examinations and upcoming other subjects projects deadlines.
2. Group's coding process did not have any new updates which had the same reason as the above problem.

### **What can be done differently in the next sprint to improve the project:**

1. Group needs to boost up the process speed to catch up with the intended planning.
2. Dividing the group into two smaller groups who are responsible for doing PAs and coding respectively.

### **What lessons we could learn:**

1. One member missing a deadline can lead to the postponement of the group progress.
2. Group has to do everything in advance and spare at least one week to revise the products.
