=====15/8/2023, Weekly scrum meeting 1 - Sprint 5 =====

Team members present:

- Nguyễn Lê Hoàng Kha
- Trần Hiếu Tâm
- Phan Thái Khang
- Phạm Gia Tuấn Khải
- Nguyễn Tuấn Tuấn

Team members absent:

- None

**Meeting Content:**

- Plan on doing PA5.
- Check on the process of doing Revised SAD.
- Keep finishing back-end and front-end issues found.

**Meeting Result:**

Members	What have I done since last week?	What will I do until next week?	What issues / problems /obstacles do I have?
Nguyễn Lê Hoàng Kha	Merged all features from Back-End and FrontEnd and tried to complete any small detail of the Website. Present the initial official version of Wellib website.	Prepare for the Group Project presentation. Review the assigned tasks for the peer evaluation.	The conflicts between branches take more time than I expected.
Trần Hiếu Tâm	Completing Librarian back-end features: Request book, Request User, Datatable for requests, Librarian Home. Complete data preparation for the web server.	Prepare for the Group Project presentation. Summarize and check all files for the final presentation. Support test evaluation with user mode.	It takes a lot of time to gather books data by hand in an inefficient way.
Phạm Gia Tuấn Khải	Addressing remaining bugs in the import function and fixing them. Help reconfigure the	Prepare for the Group Project presentation. Review the website for any potential bugs and fix them before the day	The process of addressing bugs takes longer than expected.

	<p>structure of the .csv input file.</p> <p>Test some features of the website and report possible bugs.</p>	of presentation.	
Nguyễn Tuấn Tuấn	<p>Update the Database for Frontend:</p> <p>Update appearance of datatable.</p> <p>Add Search and Sort buttons.</p> <p>Update management for book, category, source type and language and export and import buttons.</p>	<p>Prepare for the Group Project presentation, review the code and finish given tasks to completion. Review documents to find any inconsistencies in the system.</p>	<p>The appearance of many concepts and terminologies make the process more difficult due to generalization and misunderstanding resulting in timeloss.</p>
Phan Thái Khang	<p>Completely fix bugs on front-end reader pages, including search, filter, comment, and profile pages. In addition, help finish all pages design in figma, and describe the UI prototype.</p>	<p>Prepare for the Group Project presentation. Examine the website for potential flaws and resolve them before the presentation.</p>	<p>The UI design takes so much time. It's hard to describe the UI prototype in detail.</p>
