

Weekly scrum meeting notes.

=====22/6/2023, Weekly scrum meeting 1- Sprint 2 =====

Team members present:

- Nguyễn Lê Hoàng Kha
- Trần Hiếu Tâm
- Phan Thái Khang
- Phạm Gia Tuấn Khải
- Nguyễn Tuấn Tuấn

Team members absent:

- None

Meeting Content:

- Check the process of doing PA1.
- Plan on doing other PAs ahead of schedule as well as assign tasks to members.
- Assign members to finish code of some features.
- Do an initial idea of a database.

Members	Tasks in PA1	Percent complete
Nguyễn Tuấn Tuấn	Project Plan (1+2)	95%
Trần Hiếu Tâm	Project Plan (3) + Vision (1+2)	90%
Nguyễn Lê Hoàng Kha	Project Plan (4)	95%
Phan Thái Khang	Vision (3)	95%
Phạm Gia Tuấn Khải	Vision (4+5+6)	90%

Members	What have I done since last week?	What will I do until next week?	What issues / problems /obstacles do I have?

Nguyễn Lê Hoàng Kha	<ul style="list-style-type: none"> - Building base code for Project. - Building examples of basic functions. - Completing chapter 4 of Plan Document 	<ul style="list-style-type: none"> - Building Authentication. - Building Authorization. - Building Custom multiple User types. 	<ul style="list-style-type: none"> - Can not find the solution to implement Modal effect. - Having not clearly revised the Plan and Vision Document.
Trần Hiếu Tâm	<ul style="list-style-type: none"> - Completing Introduction part and Positioning part of Vision Document - Completing chapter 3 of Plan Document - Learning the basics of Django. 	<ul style="list-style-type: none"> - Building and coding the basic functions of Librarian. 	<ul style="list-style-type: none"> - Difficulty understanding some documents in English. - Having not been clear about the project organization structure chart with a small group.
Phạm Gia Tuấn Khải	Completing essentially the latter half of the Vision Document from PA1 Covered all basic knowledge of Django	Engage in coding additional functions for administrator	
Nguyễn Tuấn Tuấn	Complete Project Plan for PA1 Learn Python and Django basics Research tools and Platforms for the project	Prepare for project, decide on functionalities for the project and prepare for next PA	Lack of experience in the field of coding leads to timeloss and communication problems.
Phan Thái Khang	Completing the	Get ready by	Time loss and

	entire part 3 of Vision Document from PA1, including Stakeholder and User Descriptions, User Summary, User Environment, Summary of Key Stakeholder or User Needs, and Alternatives and Competition	learning the fundamentals of the front-end. Create a homepage framework before adding frontend coding.	communication issues result from a lack of coding skills.
--	--	--	---

Meeting Result:

- Members continue to finish PA1.
- Team has not finished discussing the database. Members need to find the best solutions for Borrowing transactions.
- Other intended meeting's content can not be done which will be held in the next meeting. (25/6/2023)

===== 4/7/2023, Weekly scrum meeting 2 - Sprint 2 =====

Team members present:

- Nguyễn Lê Hoàng Kha
- Trần Hiếu Tâm
- Phan Thái Khang
- Phạm Gia Tuấn Khải
- Nguyễn Tuấn Tuấn

Team members absent:

- None

Meeting Content:

- Last check on PA1 requirements before submit.
- Check the process of doing PA2.
- Check the process of back-end features coding.

Members	What have I done since last week?	What will I do until next week?	What issues / problems /obstacles do I have?
Nguyễn Lê Hoàng Kha	Assigned tasks to members as team's leader. Complete coding authentication and user authorization. Writing use-case specification for Reader part.	Prepare the next PA part related to the Reader user. Helping members to finish the coding process.	Do not have enough time to track members progress.
Trần Hiếu Tâm	Drawing a use-case model for the librarian user. Preparing to write Use-Case Specification for librarian.	Continue coding functions used for librarian. Prepare the next PA part related to the librarian user.	Difficulty in building functions that need coordination between multiple actors

	Coding some basic functions used for librarian.		
Phạm Gia Tuấn Khải	Help draw use-case model for the admins Coding functions to help admins control elements like source type and book information	Prepare for the next PA part related to the administrator Finish base functions for the admins	Minor issues in having a clear understand of how the admin should interact with other users
Nguyễn Tuấn Tuấn	Code base functions for Admin-role users, Research and report use-case model and specification for the project Reference existing libraries	Prepare and research for next PA, Completing base functionalities for Admin users for Back-end development Research project components and relationships	Still lack of coding experience, resulting in timeloss and development, Many bugs Understanding of requirements is still poor
Phan Thái Khang	Prepare the concept for designing a use case that meets the requirements of the reader. Additionally, learn how to implement the front end for the reader's homepage.	Up until the next PA, keep coding the frontend of the homepage and strive to finish it completely.	Approaching a new subject of knowledge raises concerns about how time-consuming front-end coding will be.

Meeting Result:

- Team has detected mistakes in PA1 and fixed them on time.

- Members continue to complete PA2.
- Members continue to complete back-end features coding tasks before the end of second sprint.
