

===== 17/8/2023, Sprint review meeting - Sprint 5 =====

Team members present:

- Nguyễn Lê Hoàng Kha
- Trần Hiếu Tâm
- Phan Thái Khang
- Phạm Gia Tuấn Khải
- Nguyễn Tuấn Tuấn

Team members absent:

- None

What worked well:

1. Team could finish all main features on time and also manage any possible bugs found and fixed before publishing the beta version of the Wellib website.
2. All requirements of PA4 were finished on time and had spare time to double check on PA4.
3. Managed to finish a part of PA5 and also prepared a slide for the final presentation.

What went wrong:

1. While listing the main features of the project in order to write a test case for PA5, we figured out that we have forgotten to list one important main feature in the Vision document which can lead to the inconsistency between documents.

What can be done differently in the next sprint to improve the project:

1. It is nearly the end of the project, we need to focus on releasing the final version of the website and fix all the bugs found in the test case document as much as possible.

What lessons we could learn:

1. Comprehensive and accurate documentation is vital to avoid inconsistencies and confusion among project components.
2. Regularly reviewing project progress and documentation helps identify gaps and inconsistencies early.
